Faculty Position in Timber Construction

at the Swiss Federal Institute of Technology Lausanne (EPFL)

The EPFL plans a substantial strengthening of its School of Architecture, Civil and Environmental Engineering.

As part of this broad program, we anticipate a Professor position in the field of timber construction. We are seeking a highly qualified person with an interdisciplinary vision and an outstanding record of professional scientific accomplishments. The selected candidate will have the possibility to maintain an external office and develop a professional activity outside the campus.

The appointee should have acknowledged skills in designing and completing bold and innovative architectural and structural timber works, as well as an ability to convey the lessons drawn from his/her professional activity to undergraduate and graduate students in both civil engineering and architecture.

We offer internationally competitive salaries and benefits.

Applications with curriculum vitae, publications list, concise statement of research and teaching interests as well as the names and addresses (including e-mail) of at least five references should be sent by **September, 2003** to

**Professor Laurent Vulliet, Dean
School of Architecture
Civil and Environmental Engineering
EPFL
CH-1015 Lausanne, Switzerland**

For additional information on the EPFL, please consult: <http://www.epfl.ch> or <http://enac.epfl.ch>

The EPFL is an equal opportunity employer.
